ABNORMALITIES

The artwork is a complex, abstract composition. At the center is a figure whose torso is a dark, textured red, speckled with white dots. The limbs and other protrusions are a vibrant green, also speckled with white. These green forms are irregular and organic, resembling a stylized, multi-limbed creature or a complex anatomical structure. Surrounding this central figure are long, flowing, smoke-like or liquid-like shapes in shades of blue and purple. These shapes extend outwards from the central figure, creating a sense of movement and ethereal atmosphere. The entire piece is set against a solid black background, which makes the colors of the figure and the surrounding shapes stand out prominently.
